## SUMMARY

As an enthusiastic and tech-savvy individual, I am eager to kickstart my career in the IT industry. With a strong educational background and a passion for problem-solving, I possess a solid foundation in Python, Amazon Web Services, and Cloud computing. I am seeking an opportunity to contribute my fresh ideas and collaborate with a team of professionals to drive innovation and create impactful solutions in the IT company.

## KEY SKILLS

- Amazon Web Services
- Cloud Computing
- Python Programming
- Git & Github
- Windows OS
- Linux OS

## PROFESSIONAL EXPERIENCE

### AWS DevOps Trainee

6 Months

Technical Hub

During my internship, I actively applied AWS Cloud Practitioner knowledge to contribute to various projects. I engaged in configuring and managing AWS services such as EC2, S3, IAM, and VPC, gaining hands-on experience in deploying scalable solutions and optimizing cloud infrastructure. Collaborating within cross-functional teams, I leveraged AWS tools to streamline processes, troubleshoot issues, and support the development of robust, cost-effective cloud-based solutions. Through this experience, I was able to improve my cloud computing skills and actively participate in real-world projects that related to industry best practices.

## PROJECT

### AWS Production Environment Implementation

Designed and implemented a robust AWS production setup through self-directed learning. Achieved high availability with multi-AZ deployment, bolstered security using private subnets, and enabled dynamic scaling via Auto Scaling. Ensured resilience with redundant NAT Gateways across Zones and established secure instance access through a bastion server. Incorporated practical learning with basic HTML documentation within instances.
